### Field of application

For reducing the friction and tie-up between leathers

### Properties

ECOSLIP 60 will reduce the friction between the leather in the drum during wet process thereby avoiding the heat .

The leathers will not tie up and hence knotting of leathers is avoided which results in leathers without damage.

Does not react with the leather or the chemicals used in the process and hence there will be no adverse effect to the tanning process

### Quantities:

Depending upon end load of drum 0.1% to 0.3% will be enough.
