Properties and Application

ZSIVILAC EC97 is a high shine thinners soluble lacquer based on Nitrocellulose incorporated with special additives to give waxy, bouncy touch. ZSIVILAC EC97 is used as top coat to give clear, glossy, stretchy film with waxy and bouncy touch. ZSIVILAC EC97 does not probate grain harshness. ZSIVILAC EC97 with stands both very high and very low temperatures. ZSIVILAC EC97 does not cause blushing even in temperatures below zero degrees due to high grade raw materials used.

Normally used in dilution with thinner with 1:1 to 1:2 ratio. It is recommended to use only virgin thinners as mixed thinners or low grade thinners will disable the property of the product.
