

ZSIWAX SL-2

Crazy Horse Wax – Roller Coat

Chemical composition	Blend of Natural & Synthetic Polymeric waxes
Solids	Approx 99%
Appearance	Beige Solid
Shelf life	When Stored Properly will have prolonged life time without any time frame.

Properties

ZSIWAX SL-2 produces very hard crunch effect with pullup and darkening effect even on soft leathers.

Application:

ZSIWAX SL-2 is generally applied by roller coater or padding by melting.

ZSIWAX SL-2 can be used as a blend with ZSIWAX 198-2

It is advised to add ZSIWAX SL-2 with ZOIL 893A at 80 : 20 ratio and mix together under heat before applying on leather.

Normally the effect is predominant at deposition ratio of 15 gms per sq.ft.

Care should be taken to avoid excess deposition.

The leather surface should be more hydrophilic thereby the wax is absorbed immediately so that the effect is achieved.

Note : The product being combination of various raw materials, there are Chances of variations in Colour. The property and Application of the product will remain same.
