ZSIVITAN AK Liq

Liquid Sulfone Syntan

Chemical composition	<i>Sulfone Condensation product</i>
Solids	<i>40 to 45%</i>
Appearance	<i>Reddish Brown Liquid</i>
pH - value 1 : 10	<i>3.0 – 4.0</i>
Charge	<i>Anionic</i>
Shelf life	<i>Up to 1 year at temperatures between 5 and 40° C.</i>
Dilution	<i>Added Undiluted</i>

Field of application :

In all type of leathers where fullness with clean dyeing is needed.

Properties :

- ***Avoids highlighting of defects as it will not allow dyes to fix on the defects thereby the leather will have very uniform appearance.***
- ***It has full self tanning property and hence can be used for wet white tanning. When used along with Phosphonium and Aldehyde tanning it improves the light fastness and make leather without looseness and fine grain.***
- ***Excellent filling in loose portion. Hence no grain disturbance.***
- ***Completely solubilises the excess tannins in the veg leather by which dye patches will be avoided.***
- ***Provides excellent fullness and mellowness.***
- ***Good Print retention with light weight.***
- ***When used in EI tanning one can completely eliminate the use of Mimosa Powder as ZSIVITAN AK Liq will provide the required fullness along with even light coloured shade.***

The above information on application on leather is given in accordance to the best of our knowledge and our lab applications. As the usage of the product by the consumer is not under our control, we are not liable for any sort of claims or reimbursements. The product is given without any guarantee/warranty in connection to end use.
