ZSIVIRA

ZSIVITAN CBS

Cresol Syntan

Chemical composition	Cresol Condensated Product
Solids	98 %
Appearance	Off White powder
pH - value 1 : 10	3.5 – 4.5
Charge	Anionic
Shelf life	Up to 1 year at temperatures between 5 and 40° C.
Dilution	Added Undiluted

Field of application :

In the tanning retanning and post fatliquoring of special quality Leathers.

Properties :

- *ZSIVITAN CBS gives leather fullness and a fine grain with good filling.*
- *When used in New Zealand type ribby skins with double looseness, the product will completely fill the loose portions and produces a clean flat leather without any looseness.*
- *ZSIVITAN CBS when used along with natural extracts, catalyses the extracts and provide room to produce very light pastel colour dyeing possible with evenness throughout the leather.*
- *Excellent dyeability without dye patch.*

The above information on application on leather is given in accordance to the best of our knowledge and our lab applications. As the usage of the product by the consumer is not under our control, we are not liable for any sort of claims or reimbursements. The product is given without any guarantee/warranty in connection to end use.
